Effectively managing and recording mental health concerns

MyConcern is the simple to use, safe and secure solution for recording and managing all Social, Emotional and Mental Health (SEMH) concerns in an educational setting. The system enables all staff to record any mental health concern, safe in the knowledge that a proper record has been made and that the designated lead has been automatically notified. It also equips the designated lead to assess each concern and manage any ongoing action that needs to be taken.

MyConcern was designed with the support of teaching professionals to meet - and often exceed - all DfE statutory guidance and school inspection standards. It is constantly updated to reflect national good practice in schools and ‘lessons learned’, including Serious Case Reviews.

With the rise in children and young people affected by mental health issues, emotional wellbeing and mental health is a growing concern for all, and as schools have a crucial responsibility in addressing this, managing SEMH will lead to increased demands and admin. MyConcern will provide a holistic view of emotional wellbeing in schools, reduce staff administration time, minimise paper records and provide a robust and efficient system for managing your mental health strategy.

But don’t just take our word for it – book a free demonstration with Link2ICT to see first-hand, the benefits this software can bring to you and your school.

Benefits

- Automatically notifies the Designated Leads/Child Protection Officers of any new concerns
- Allows secure information sharing and joint working with trusted external partners such as the Police or Social Workers
- Powerful reporting tools deliver management reports for senior leaders, governing bodies, school pyramids, MATS and clusters
- Comprehensive data dashboards enable the early identification of mental health risks and trends
- Allows you to meet all of your safeguarding obligations providing clear and auditable evidence for Ofsted
- Supports early identification and intervention
- Intuitive and easy to navigate – little training required
- Accessible securely from any web-enabled device
- GDPR Compliant

MyConcern has been a ‘game changer’ for Rocklands. We have always prided ourselves on our approach to safeguarding children but using MyConcern means that ALL staff have access to log concerns and are automatically kept informed of any resulting actions – they no longer have to find a form, write it all out and bring it to me. Staff now proactively share responsibility and are very confident using MyConcern.

Jane Elliker, Deputy Headteacher
Rocklands School
